Education

2007 - 2011
BACHELOR OF ENGINEERING
Computer Engineering.
Sripatum University ,Thailand

Technical Skills

- C# .NET / C# NET Core
- AngularJS
- Dart Flutter
- Vue3 , NuxtJS
- ReactJS , NextJS
- PHP CodeIgniter 3
- PHP Laravel
- Bootstrap CSS
- Tailwind CSS
- Oracle , MariaDB , PostgreSQL , MSSQL
- Redis
- Git , Docker ,Nginx , Jenkins,
- CentOS, Ubuntu, Windows Server

Language

Thai (Native)

English (Basic / Working Knowledge)

Experience

2024 - Present
Miracle Advance Technology Co. Ltd, Bangkok, Thailand
SENIOR PROGRAMMER

- Architected and developed RESTful APIs using C# .NET Core 8 and .NET Framework 4 for a hospital-grade Radiology Information System (RIS), enabling real-time clinical data exchange across hospital departments.
- Engineered RIS integrations with Hospital Information Systems (HIS) and Fujifilm Synapse PACS using HL7 messaging standards, supporting accurate patient registration, order synchronization, and diagnostic imaging routing.
- Developed Program Envision, a cross-platform mobile application built with Dart and Flutter, streamlining physician access to radiology reports, worklists, and diagnostic workflows.
- Streamlined clinical documentation with automated reporting and customizable templates, reducing radiologist manual data entry and accelerating diagnostic turnaround time.

2023 - 2024
BAAC Bank, Bangkok, Thailand [ธนาคาร ธ.ก.ส.]
COMPUTER PROGRAMMER

- Spearheaded development of the Service Payment API and financial reporting platform using C# .NET Core and ReactJS, increasing transaction processing speed and accuracy across banking operations.
- Developed A-Staff BAAC, an internal mobile application using Dart and Flutter, improving daily workflow accessibility for thousands of bank employees.
- Built and maintained REST APIs with C# .NET Core and .NET Framework 4, and developed an AngularJS Payment Report System to automate management analytics and payment reconciliations.

2022 - 2023
Thailand Post, Bangkok, Thailand [บ.ไปรษณีย์ไทย จำกัด]
COMPUTER ENGINEER

- Developed DigitalPostID, a Flutter-based mobile application delivering secure digital postal and identity verification services to nationwide users.
- Modernized legacy database integrations by building high-availability REST APIs using C# .NET and Oracle Database for the Thailand Address Data and SMS Gateway systems, supporting real-time enterprise data retrieval.
- Designed and implemented AngularJS web portals for address data management and SMS transaction log monitoring, reducing troubleshooting and configuration time.

2012 - 2022
Royal Irrigation Department, Bangkok, Thailand [กรมชลประทาน]
COMPUTER TECHNICAL OFFICER

- Engineered mission-critical internal web applications, including SlipOnline (digital payroll system) and an Advance Insurance System, using PHP and CodeIgniter 3 to digitize manual HR and finance workflows for thousands of personnel.
- Built an enterprise Audit Report System using PHP and Laravel to standardize compliance tracking and internal auditing processes.
- Developed a high-traffic public information portal delivering real-time daily water level and rainfall data to support national water resource management.
